

World Premiere Showing of Documentary:

BUILT TO LAST?

SAVING OUR HOMES IN THE AGE OF DISASTERS

A one-hour independent documentary, inspired by the book 'Resilience-The Ultimate Sustainability' and featuring FIU Extreme Events Institute Director Dr. Richard Olson, communicates what ordinary people around the world can do to make their homes safe and hazard-resilient. The documentary will start airing on PBS stations across the U.S. this summer. [CLICK HERE](#) to view the trailer.

The documentary will be followed by a panel discussion featuring:

[Craig Fugate](#), former Federal Emergency Management Agency Administrator
[Julie Rochman](#), former CEO of Insurance Institute for Business & Home Safety
[Aris Papadopoulos](#), Extreme Events Institute's Distinguished Expert in Resilience
[Dr. Rich Olson](#), Extreme Events Institute Director
