2A. In your opinion, what should be given higher priority: safer construction of homes or avoiding cost increases?

(1) Safer construction of homes

(2) Avoiding cost increases

(3) Both [DON'T READ]

2B. On a 1-to-7 scale, where 1 is "strongly disagree" and 7 is "strongly agree," how much do you agree or disagree with this statement: "Governments should spend more money to enforce building codes and construction regulations to make homes safer from natural disasters, even if it means spending less on other programs."

3. Some people believe that damage from Hurricane Dorian could have been prevented if building codes and construction regulations had been better enforced, while other people believe that the damage could not have been prevented by any means. With which of the following arguments do you agree more?

(1) Damage could have been prevented if building codes and construction regulations had been better enforced
